

Not all ductwork contractors are the same.

If it's safety-critical, you need a DW154 fume extract ductwork specialist

DW154 ductwork is likely to be needed where chemicals are in use which produce fumes and/or vapours which need to be removed and controlled safely under the COSHH Regulations

A broad range of industries:

- Aerospace
- Automotive
- Surface finishing and galvanizing
- Chemical processing
- Steel
- Education
- Pharmaceuticals
- Research & Development
- Healthcare
